

Vision:

To produce leading graduates in their respective field of studies.

Mission:

The purpose of HAU is to honorably serve the needs of the community in the Horn of Africa by offering education and knowledge of superior quality in all fields of studies we offer with our dedicated instructors and using the modern classroom teaching equipment and facilities at fair fees to the students for ensuring financial stability, growth and further improvements. In doing so, we promote moral support to our staff by giving them remuneration and benefits that commensurate to their contribution to the university expectations.

Main Objectives

The main objectives of HAU are:

1. To produce qualified students in comparison to the international standard.
2. To provide higher education at a reasonable price to the students.
3. To change the traditional teacher centered method to participatory student centered approach of teaching.
4. To promote a sense of practicable learning rather than theory based one.
5. To carry out useful researches, and training programs that can lead to social and economic developments for the community.
